He stated "we are the ones that should know whether the people are taken care of." He Favored "decentralization of the practice of medicine," reservation of the rights of the States and Counties to solve the problems in their own localities. There have been almost 4,500 surveys by the Bureau since about 1906, and at the present time there is being made a survey on medical care in every County in the U.S. by the medical profession.

6032 MEETING OF STOCKHOLDERS'

of

JACKSON COUNTY DOCTORS OF OREGON PHYSICIANS' SERVICE

at

HOTEL HOLLAND, MEDFORD, OREGON
JUNE 6, 1944.

The following were present: C. I. Drummond, Chas. W. Lemery, Jas. C. Hayes, A. F. W. Kresse, R. P. Mortensen, L. D. Inskeep, Orel A. Welsh, A. E. Dodson, LeRoy Jensen, Willard Marshall, Ken Manning and Justin Smith.

Dr. Drummond presided. The first order of business was to change the fee schedule. After a short discussion it was moved and seconded and voted unanimously to raise the present fee schedule to that of the state fee schedule, effective July 1, 1944.

Dr. Lemery made a motion that a detailed financial report be mailed to the doctors each month. After some discussion this was deemed inadvisable by the majority, whereupon Dr. Lemery withdrew his motion.

The next order of business was the consideration of the Bear Creek Family Coverage Plan. Justin Smith presented facts and figures for the past year showing a considerable loss to the Oregon Physicians' Service due, mainly to too low a fee schedule and partly to a bad experience rating for the year. After considerable discussion it was voted to present rates suggested by Mr. Marshall for the coming year:

6033

Wife only	1.50 per month
Wife and one child	2.25 per month

Wife and two Children	2.75 per month
Wife and three Children	3.00 per month
Wife and four children or more	3.25 per month

Justin Smith spoke briefly to the doctors calling their attention to the necessity of checking more closely on the individual subscribers seniority, checking for industrial accidents, and advising that they call the local office on all surgery and serious hospital cases and to be sure of Oregon Physicians' Service liability.

Dr. Hayes introduced a motion that each doctor okey his own patients' hospital bills and to be certain that all charges were just and correct before presentation to Oregon Physicians' Service for payment. After a short discussion this motion was moved, seconded, and carried unanimously.

Dr. Drummond introduced Mr. Manning, the division manager from the Salem office and asked him to say a few words. Mr. Manning complimented the doctors on their splendid cooperation with Oregon Physicians' Service and assured them that Oregon Physicians' Service stood ready and willing at all times to cooperate with them. They were urged to call upon Oregon Physicians' Service anytime they felt they were not receiving fair consideration in payment for their services. In closing, Mr. Manning stated that this was the doctor's own organization and that the management would be guided in all things by their needs and desires if they would make them known.

6034 Mr. Marshall spoke upon the growth of Oregon Physicians' Service since its inception. He presented facts and figures to show that Oregon Physicians' Service has grown steadily and rapidly and is now larger than all combined commercial organizations in the state. He also stated that the number of cooperating doctors was increasing steadily and that the spirit or cooperation from all the doctors was very gratifying and that from all indications the organization would continue to grow and operate more successfully as time goes on.

It was voted to hold a stockholders meeting approximately every six months, the opinion being that this would keep the doctors better informed and stimulate more interest in Oregon Physicians' Service.

There being no further business, the meeting adjourned at 10:15 P. M.
